

Contents	Page
1 Introduction.....	1
2 Scope	1
3 Identification of connection components	1
3.1 Hose nut	1
3.2 Headpiece	1
3.3 Fixed end.....	1
4 Design considerations	1
4.1 Prevention of cross connection	1
4.2 Sizes of connections.....	1
4.3 Pressure ratings	1
4.4 Materials of construction.....	2
4.5 Maximum allowable working pressure.....	2
4.6 Marking.....	2
4.7 Lugs on hose nut.....	2
4.8 O-ring option.....	2
4.9 Headpiece protection.....	2
4.10 Adapters for product transfers	2
5 Application of connections.....	2
6 References	8
7 Additional references.....	8

Tables

Table 1—Assignment of carbon dioxide connections	2
Table 2—Key to letter code descriptions for dimensions on drawings of standard connections.....	8
