ASCE STANDARDS

In 2006, the Board of Direction approved the revision to the ASCE Rules for Standards Committees to govern the writing and maintenance of standards developed by the Society. All such standards are developed by a consensus standards process managed by the Society’s Codes and Standards Committee (CSC). The consensus process includes balloting by a balanced standards committee made up of Society members and nonmembers, balloting by the membership of the Society as a whole, and balloting by the public. All standards are updated or reaffirmed by the same process at intervals not exceeding five years.

A complete list of currently available standards is available in the ASCE Library (http://ascelibrary.org/page/books/s-standards).

PREFACE

The material presented in this publication has been prepared in accordance with recognized engineering principles. This Standard and Commentary should not be used without first securing competent advice with respect to their suitability for any given application. The publication of the material contained herein is not intended as a representation or warranty on the part of the American Society of Civil Engineers, or of any person named herein, that this information is suitable for any general or particular use or promises freedom from infringement of any patent or patents. Anyone making use of this information assumes all liability from such use.

Earlier drafts of this Standard and Commentary were reviewed and balloted several times by the full Standards Committee. The votes and comments returned by the members were reviewed and their proposed resolutions developed by the appropriate subcommittees. The resulting approved changes in the text are included in this volume.

Some of the provisions were adopted from other codes, standards, regulations, and specifications; some reflect prevailing industry design and construction practices; some grew out of the experiences, practices, and opinions of members of the Committee; and some others were developed through research conducted specifically for this Standard by members of the Committee.

Preparation of a standard for Design Loads on Structures during Construction and its outline were originally proposed to ASCE by Robert T. Ratay in 1987, resulting in the first edition of the Standard published in 2002 as ASCE/SEI 37-02, Design Loads on Structures during Construction. The Committee, through its subcommittees, has been working on the development of a revision to the Standard to embrace comments, recommendations, and experiences since the original 2002 edition, and to supplement the loading requirements of ASCE/SEI 7-10, Minimum Design Loads for Buildings and Other Structures, since the latter does not include requirements for loads during construction. The environmental loads provisions of this ASCE/SEI 37-14 have been aligned with those of ASCE/SEI 7-10 and adjusted for the duration of the construction period.

Final committee balloting was completed, and public comments solicited and resolved in mid-2014.
ACKNOWLEDGMENTS

Design Loads on Structures during Construction, Standard ASCE/SEI 37-14, was developed over a period of several years by the Design Loads on Structures during Construction Standard Committee of the Codes and Standards Activities Division (CSAD) of the Structural Engineering Institute (SEI), and of the Codes and Standards Activities Committee (CSAC) of the American Society of Civil Engineers (ASCE). This 2014 edition was prepared by six subcommittees of the Design Loads on Structures during Construction Standard Committee under the leadership of the following individuals:

Robert T. Ratay, Ph.D., P.E., F.SEI, F.ASCE, Chairman
Rubin M. Zallen, P.E., F.ASCE, Chapter 1.0, General
John F. Duntemann, P.E., S.E., M.ASCE, Chapter 2.0, Loads and Load Combinations
Cris Subrizi, P.E., M.ASCE, Chapter 3.0, Dead and Live Loads
John S. Deerkoski, P.E., S.E., P.P., F.ASCE, and Alan Fisher, P.E., M.ASCE, Chapter 4.0, Construction Loads
Vincent Tirolo Jr., P.E., M.ASCE, Chapter 5.0, Lateral Earth Pressure
James G. Soules, P.E., S.E., P.Eng., F.ASCE, Chapter 6.0, Environmental Loads

Robert T. Ratay, Ph.D., P.E., F.SEI, F.ASCE, Chair
Cosema E. Crawford, P.E., M.ASCE
John S. Deerkoski, P.E., S.E., P.P., F.ASCE, Chapter 4 Subcommittee Co-Chair
John F. Duntemann, P.E., S.E., M.ASCE, Chapter 2 Subcommittee Chair
Donald Dusenberry, P.E., F.ASCE, F.SEI
Alan Fisher, P.E., M.ASCE, Chapter 4 Subcommittee Co-Chair
Noel J. Gardner
David H. Glabe, P.E., M.ASCE
Ram A. Goel, P.E., F.ASCE
Allan H. Gold, P.E., S.E., R.A., F.ASCE
Vijayalakshmi Gopalrao, Aff.M.ASCE
Dennis W. Graber, P.E., L.S., M.ASCE
Gilliam S. Harris, P.E., F.ASCE
James R. Harris, Ph.D., P.E., F.SEI, M.ASCE
Philip T. Hodge, P.E., M.ASCE
William P. Jacobs V, P.E., S.E., M.ASCE
David W. Johnston, Ph.D., P.E., F.ASCE
Roger S. Johnston, P.E., M.ASCE
Robert C. Krueger, P.E., M.ASCE
David G. Kurtanich Sr., P.E., M.ASCE
Jim E. Lapping, P.E., M.ASCE
John V. Loscheider, P.E., M.ASCE
Robert G. McCracken
Bob Glenn McCullough, P.E., M.ASCE
Thomas J. Meany Jr., P.E., F.ASCE
Brian Medcalf, P.E., M.ASCE
Joel Moskowitz, P.E., D.GE, M.ASCE
Joe N. Nunnery, P.E., M.ASCE
Dai H. Oh, P.E., M.ASCE
David B. Peraza, P.E., M.ASCE
Max L. Porter, Ph.D., P.E., F.SEI, Dist.M.ASCE
Emil Simiu, Ph.D., P.E., F.EMI, F.ASCE
John M. Simpson, P.E., M.ASCE
James G. Soules, P.E., S.E., P.Eng., F.ASCE, Chapter 6 Subcommittee Chair
Cris Subrizi, P.E., M.ASCE, Chapter 3 Subcommittee Chair
Bruce A. Suprenant, P.E., M.ASCE
Raymond H. R. Tide, Ph.D., P.E., F.ASCE
Vincent Tirolo Jr., P.E., M.ASCE, Chapter 5 Subcommittee Chair
Ronald W. Welch, Ph.D., P.E., M.ASCE
Michael A. West, P.E., F.SEI, F.ASCE
Terry K. Wright, P.E., M.ASCE
Rubin M. Zallen, P.E., F.ASCE, Chapter 1 Subcommittee Chair

The particularly active long-term participation and valuable contribution of the following members, in addition to the chair, the five subcommittee chairs, and two co-chairs, is acknowledged: James R. Harris, Gilliam S. Harris, Donald Dusenberry, and David W. Johnston.

ASCE acknowledges the work of the Design Loads on Structures during Construction Standard Committee of the CSAD of SEI and of the CSAC of ASCE. The Standard Committee comprises individuals from many backgrounds including design, analysis, research, consulting engineering, construction, education, government, and private practice.

Voting members of the 42-member Standard Committee are:

Robert T. Ratay, Ph.D., P.E., F.SEI, F.ASCE
Cosema E. Crawford, P.E., M.ASCE
John S. Deerkoski, P.E., S.E., P.P., F.ASCE
John F. Duntemann, P.E., S.E., M.ASCE
Donald Dusenberry, P.E., F.ASCE, F.SEI
Alan Fisher, P.E., M.ASCE
James R. Harris, Ph.D., P.E., F.SEI, M.ASCE
Philip T. Hodge, P.E., M.ASCE
William P. Jacobs V, P.E., S.E., M.ASCE
David W. Johnston, Ph.D., P.E., F.ASCE
Roger S. Johnston, P.E., M.ASCE
Robert C. Krueger, P.E., M.ASCE
David G. Kurtanich Sr., P.E., M.ASCE
Jim E. Lapping, P.E., M.ASCE
John V. Loscheider, P.E., M.ASCE
Robert G. McCracken
Bob Glenn McCullough, P.E., M.ASCE
Thomas J. Meany Jr., P.E., F.ASCE
Brian Medcalf, P.E., M.ASCE
Joel Moskowitz, P.E., D.GE, M.ASCE
Joe N. Nunnery, P.E., M.ASCE
Dai H. Oh, P.E., M.ASCE
David B. Peraza, P.E., M.ASCE
Max L. Porter, Ph.D., P.E., F.SEI, Dist.M.ASCE
Emil Simiu, Ph.D., P.E., F.EMI, F.ASCE
John M. Simpson, P.E., M.ASCE
James G. Soules, P.E., S.E., P.Eng., F.ASCE
Raymond H. R. Tide, Ph.D., P.E., F.ASCE
Vincent Tirolo Jr., P.E., M.ASCE
Ronald W. Welch, Ph.D., P.E., M.ASCE
Michael A. West, P.E., F.SEI, F.ASCE
Terry K. Wright, P.E., M.ASCE
Rubin M. Zallen, P.E., F.ASCE
